BRINGING AN END TO
DAY-OF-SURGERY CRISIS MANAGEMENT

BEST PRACTICE PERIOPERATIVE PROGRAM DESIGN

JUNE 3-4, 2010 | DELTA MEADOWVALE
MISSISSAUGA, ONTARIO

JUNE 3: 7:15 A.M. – 5 P.M., RECEPTION 5 – 7 P.M.

JUNE 4: 7:30 A.M. – 1 P.M.

Designed for Administrators, OR Managers, Surgeon Leadership,
or a Hospital Team of Perioperative Leaders

2010 Topics:

- Current trends in Canadian perioperative programs
- Perioperative organizational structure – key physician, nursing, and administrative roles and functions
- Supply chain and SPD management
- Best practice case scheduling and block management
- Incorporating data as a management tool
- Increasing patient throughput: Using OR time effectively and efficiently

Great cross-section of perioperative staff – surgeons, anesthetists, OR managers, and nurses of all levels.

In my nursing career this was one of the most exciting, practical conferences I have ever experienced.

An *amazing amount of knowledge* about our Canadian healthcare system and all the opportunities for improvement.

This conference provided a terrific opportunity to network and develop relationships with other perioperative professionals.
